

Lawnporn's Fresh Turf Guide

This is designed for use with turf that has been laid and has settled for approx. 1-2 weeks with regular watering.

Week 1 –

Step1. Apply Lawnporn Launch at a lower rate approx. 50ml per 100 sqm and build up over a few applications to full strength. Let the launch absorb through the lawn without water for approx. 6-12 hours.

** Water frequently 2 times a day for approx. 20-30 mins each time

Week 2 –

Step 1. Apply Lawnporn 4 seasons granular fertiliser. Full application rate is fine. Remember to water in well.

** Water frequently 2 times a day for approx. 20-30 mins each time

Week 3 –

Step1. Apply Lawnporn Root builder at a rate of 50ml per 100 sqm and build up over a few applications to full strength. Let the root builder absorb through the lawn without water for approx. 6-12 hours.

** Water 1 time a day for approx. 30 mins each time

Week 4 –

Step1. Apply Lawnporn Launch at a lower rate approx. 70ml per 100 sqm and build up over a few applications to full strength. Let the launch absorb through the lawn without water for approx. 6-12 hours.

** Water 1 time a day for approx. 30 mins each time

Week 5 – Step 1. Apply a quality wetting agent, like Lawnporn Moist, this will help lock in the water into the root zone and be evenly distributed for better use by the turf, remember to water it in.

** water every second day for the fifth week for approx. 30 mins each time

Week 6-

Step1. Apply Lawnporn Launch at a lower rate approx.85ml per 100 sqm and build up over a few applications to full strength. Let the launch absorb through the lawn without water for approx. 6-12 hours.

** water every second day for the fifth week for approx. 30 mins each time

Week 7 –

Step1. Apply Lawnporn Root builder at a rate of 75ml per 100 sqm and build up over a few applications to full strength. Let the root builder absorb through the lawn without water for approx. 6-12 hours.

** water 2-3 times per week for approx. 30-45 mins each time

Week 9 –

Step1. Apply Lawnporn Launch at 100ml per 100 sqm. Let the launch absorb through the lawn without water for approx. 6-12 hours

** water 2-3 times per week for approx. 30-45 mins each time

From here on you can work with your lawn and manage growth and the look of your lawn by alternating between Launch+ and Greenlight. Continue to apply Moist monthly to assist in water retention and even spread of moisture throughout the root system. You can mix root build and greenlight in the same tank to maintain a stunning deep green while also feeding the root system.
